Editorial

On this month we have several activities regarding labor memory and of his/her fight. In the 09 of July 1917 it happened the largest General Strike of the history of the country, paralyzing several cities as São Paulo, Jundiaí, Campinas, and Sorocaba. To you force publish (the military policemen of that time) they used of the force and they treated our companions as criminals, using firearms that it killed several companions. After 91 years, the situation as we are treated continues EQUAL!

We are treated as criminals and as such, pursued, intimidated through the usual coercion policeman of our state “democratic”, that you/they defend, as all know, just the interests of the powerful ones. Read the Manifesto in this informative one to I respect.

Another important date that we have to have present is the July 19, 1936, now in Spain, where Franco's reactionary and Fascist forces attack the recently proclaimed Republic of Spain, taking the Spanish people to a war situation among siblings. The important was that when attacking her it Republishes, the people deepened and it developed one of the most impressive experiences freer revolutionaries, collectivizing lands and factories, they administer them own and producing in a free and organized way, the “impossible”, the socialist Utopia, resisting to the attacks of the right Fascists and of the left Fascists (PCE and their Stalinist allies that you/they wanted the control and nationalization and “to regularize” the military forces of the Spanish revolution).

As important fact of union of the Brazilian Anarchist Movement, will happen in the 12 and July 13 the Anarchist Days of Protest, where we will have activities that remind and discuss the history of our fights and revolutionary actions now for the.

In the construction of a movement of the workers, without parties, without bosses, without State!

MANIFESTO IN REJECTION TO THE VIOLÊNCIA POLICIAL AGAINST WORKERS LIBERTÁRIOS IN THE MAY 1 IN SÃO PAULO

All knew! On Thursday, May 1 of that year, World Day of Fight of the Worker, to remind the Martyrs of Chicago, several manifestations happened in the whole city. São Paulo already lived together with those manifestations there are years! For some, linked the Syndical Central Officials, the spotlights ignited, but for the spontaneous manifestations and of independent groups the media remained silent. Among other that would also happen with the Manifestation called by the Labor Federation of São Paulo, the Brazilian Labor Confederation and the International Association of the Workers (FOSP/COB-AIT). But the own cruelty policeman would correct that omission of the press. Some radio stations spoke about the fact while it happened. In the night news sections, in all the broadcasting stations, it was published: demonstrators enter in shock with the Military police, more than 50 stopped! The following day all of the newspapers printed the news: VIOLENT PROTESTS, do I CONFRONT WITH it POLICES HER SOLDIERLY, MORE than 50 STOPPED, PUNKS IN CONFRONTATION WITH it POLICES HER SOLDIERLY, 14 DETAINED MINOR, 5 PROCESSED DEMONSTRATORS? AMONG THEM 2 MEMBERS OF the STATE COORDINATION OF FOSP/COB-ACAT/AIT. In most in the columns policemen, treating the fact as gangs fight, police subject? as they have treaty the social subject.

The one that few knew is that the Manifestation called by FOSP/COB-ACAT/AIT, and that if it turned the manifestation of the movement libertário of São Paulo, it is one of the genuine traditions of São Paulo! The of that year began in the neighborhoods of the periphery since 8 in the morning, with mini-assemblies and distribution of materials. That the Manifestation began downtown starting from a Concentration in the Slope of the Memory - Xavier from Toledo Collapses starting from 11:00 o'clock, later he went to the staircases of the Municipal Theater, where it was accomplishing Assembly and distribution of materials to 14:00 o'clock, when he left in Protest march, towards Square of the Cathedral, crossing with the Protest march of CONLUTAS and of INTERSINDICAL in the Square

of the Patriarch, without there were attritions. Continuing the Protest march until the Square of the Cathedral, where it accomplished Assembly and distribution of materials to 16:00 o'clock. We decided then to return to the Square of the Republic, where it proceeded in Protest march. Até então a Policia Militar (PM) acompanhava todas as movimentações, mas não houve atritos que justificasse qualquer ação da Policia Militar ? o próprio comando da Policia Militar atesta isso, após acompanhar a manifestação por mais de 4 horas!

When arriving in the Viaduct of the Tea, proceeding heading for Square of the Republic, the protest march of FOSP crossed with the protest march promoted by PCO and for the Labor League and of the Poor Farmers, that it proceeded in the same direction. As the protest march of FOSP and of the movement libertário they were without party, they decided not to proceed together, for there not being confusion among the two manifestations. During the passage of the protest march of PCO/LO the tied demonstrators FOSP were concentrated in front of headquarters of the City hall. There was a discussion between the demonstrators and word-of-order change, denouncing the action of the political parties in the social movement. PM maintained a string separating the demonstrators of both manifestations, but there was certain confraternization even. After the passage of the protest march of PCO/LO it Polices her Soldierly it maintained an isolation string, not allowing the demonstrators libertários to cross the Viaduct of the Tea, not even for the sidewalk! In an attempt of solving the impasse the demonstrators libertários changed the plans and they decided to catch a small passage of the Rua Libero Badaró, to go down to R. of Ouvidor and to cross the Catwalk on Pça of the Flags, containing the Manifestation in the Slope of the Memory.

Do they put the Protest march badly, then with about 200 people, does it travel 100 meters CLEAR her (Motorized Troop) does it attack for back and for the flanks? besides arising for the sidewalks and running over people that passed in the street. In seconds, bombs of gas and a wild violence disperses the demonstrators. Does half hour later Police her Soldierly it pursued demonstrators in the area of the Square of the Cathedral, Square of the Patriarch and Square of the Flags? in a ray of 300 meters. As balance dozens of wounded, more than 60 stopped people and humiliated and, it is known now, they are 18 processed them for having had the audacity of going to the streets to show against the exploration and the unemployment, that you/they devastate the worker's home.

We cannot allow that, in the middle of the century XXI, the social protests are treated as case of it polices! The people were entitled, beaten, tortured in a psychological way and threatened by Military Policemen that you/they identified as skinheads. The

manifestation was configured falsely as gangs conflict, disfiguring his/her objective. We are hard-working, no thieves! We demanded our rights. We are entitled, for the own laws of the State, the manifestation and the free expression of the thought. Excesses there were been were the one of PM. No demonstrator attacked or it destroyed any thing, or that it deserved an intervention of the force policeman.

- AGAINST the REPRESSÃO POLICIAL the MANIFESTATION OF MAY 1 OF FOSP/COB-ACAT/AIT!

- FOR THE IMMEDIATE FILING OF THE PROCESS!

- FOR THE DEVOLUTION OF ALL OF THE STRIPS, FLAGS ARE MATERIAL IRREGULARLY APPREHENDED!

- FOR THE IMMEDIATE ABSOLUTION OF ALL PROCESSED THEM IN THAT CASE!

- FOR THE FREEDOM OF ORGANIZATION, MANIFESTATION AND EXPRESSION!
